

Intern - Accelerator Development/Assistant to CEO in Hamburg

We are looking for a curious mind to support our CEO by launching the first maritime technology accelerator in Germany. The accelerator is backed by leading investors and industry partners. This role will allow you to work with some of the best entrepreneurs and get insider knowledge of the maritime industry and investment community to prepare you for success in a startup or investment fund in that industry. Use this rare opportunity to help setup an accelerator from scratch.

Responsibilities will include:

- Be the right hand of our CEO for 3-6 months.
- Prepare and join meetings with startups, investors and industry partners.
- Manage our deal pipeline, take responsibility for the CRM and ensure that all founders get a timely reply.
- Perform market research to help identify important trends and information on maritime technology startups around the globe.
- Building relationships with the best maritime technology startups in the world.

Benefits:

- Gain deep insight into the new technologies and business models in the maritime industry.
- Honing startup analysis skills translatable into VC, entrepreneurship, and beyond.
- Developing a network of maritime technology entrepreneurs, investors, and industry leaders.
- Competitive intern salary and opportunity to join full time after internship.

Required Skills and Experience:

- Outstanding analytical skills, detail-oriented, proactive and self-motivated.
- Passionate about online startups and deep interest in learning about businesses.
- Strong knowledge of Excel and ability to produce well designed professional looking PowerPoint presentations.
- Strong written and verbal communication skills.

How to Apply:

- Please submit your application to loebner@innoreal.io
- Include your CV and any other information you think might be helpful (short and simple please).
- Please mention your earliest availability for the position.
